**DON'T COME HOME A-DRINKIN'** by Loretta Lynn & Peggy Sue Wright

```
            D                                    A7                    D
VERSE 1:    Well you thought I'd be waitin' up when you came home last night
            D                                    E              A7
            You'd been out with all the boys and you ended up half tight
            D                                              A7              D
            But liquor and love they just don't mix leave the bottle or me behind
            G                    D            A7            D
            And don't come home a drinkin' with lovin' on your mind

            G                                                D
CHORUS:     No don't come home a drinkin' with lovin' on your mind
            G                                D                A7
            Just stay out there on the town and see what you can find
            D                                        A7                D
            Cause if you want that kind of love well you don't need none of mine
            G                    D            A7            D
            So don't come home a drinkin' with lovin' on your mind
```

            G                                D                A7
            Just stay out there on the town and see what you can find

            So don't come home a drinkin' with lovin' on your mind
            G                    D            A7            D
            So don't come home a drinkin' with lovin' on your mind
