```
                    E7                          A7          E7
VERSE 1:  Well she was just seventeen and you know what I mean
                E7                                      B7
          And the way she looked was way beyond compare
             E          E7          A        C
          So how could I dance with another.... oh
                E       B7      E7
          When I saw her standing there

                E7                      A7       E7
VERSE 2:  Well she looked at me and I, I could see
                 E7                              B7
          That before too long I'd fall in love with her
          E              E7          A        C
          She wouldn't dance with another... ooh
                E       B7      E7
          When I saw her standing there

                 A
BRIDGE:   Well my heart went boom
                A
          When I crossed that room
               A                  B7      A7
          And I held her hand in mine

                 E7
VERSE 3:  Well we danced through the night
                A7                E7
          And we held each other tight
                 E7                              B7
          And before too long I fell in love with her
               E        E7          A7       C
          Now I'll never dance with another... oooh
                 E7      B7       E7
          Since I saw her standing there

          (INSTRUMENTAL VERSE)

                            E7      B7       A7     E7
          Yeah, well, since I saw her standing there
