IT WASN'T GOD WHO MADE HONKY TONK ANGELS
(Loretta Lynne)

```
          C                                F
VERSE 1:  As I sit here tonight the jukebox playing
          G                                C
          The tune about the wild side of life
          C                                F
          As I listen to the words you are saying
                G                                C
          It brings memories when I was a trustful wife

                C                                F
CHORUS:   It wasn't god who made honky tonk angels
               G                                C
          As you wrote in the words of your song
                  C                                        F
          Too many times married men think they're still single
                 G                                C
          That has caused many a good girl to go wrong
```

INSTRUMENTAL HALF VERSE

```
            C                                        F
VERSE 2:  It's a shame that all the blame is on us women
               G                                    C
          It's not true that only you men feel the same
                 C                                        F
          From the start most every heart that's ever broken
               G                                        C
          Was because there always was a man to blame
          .
```

CHORUS
